

# First Sign® Officer Advocacy Suite

EARLY INTERVENTION • WELLNESS • EXCELLENCE • RETENTION

## First Sign® Wellness Facilitator

Become an Advocate for Healthy, Successful Policing Careers with First Sign Wellness Facilitator

Our wellness solution delivers officer-specific insights and facilitates recommended interventions, all within a single, data-driven platform. This level of proactive wellness support can significantly improve the health and wellbeing of all officers while contributing to more successful careers.

**Assess.** Supported by over 60 million data points, our tool analyzes officer patterns including exposure to significant incidents and time utilization leading to possible fatigue.

**Identify.** Our predictive analytics engine proactively identifies struggling officers, presenting personalized support recommendations to agency leaders via actionable dashboards.

**Educate.** Curated, agency-specific intervention and training content is available for officers confidentially within the Wellness Content Portal.

**Support.** Agency leaders can track progress and completion of required training and support initiatives for each individual officer.
